

## Network Notification

**Notice Date:** August 1, 2019  
**To:** Indiana, West Virginia and Kentucky Marketplace Health Partners  
**From:** CareSource  
**Subject:** Site of Care for Infusion Services  
**Effective Date:** September 1, 2019

---

Effective September 1, 2019, outpatient hospital infusions for certain specialty infusion medications will no longer be covered in this setting. Your patients will be required to receive their infusion from an alternate in-network provider.

CareSource is working with one of its network specialty home infusion providers, Accredo Specialty Pharmacy, to enable your patient to receive treatment at home or at an infusion suite.

Your patients can receive treatment:

At an in-network provider, such as Accredo Specialty Pharmacy  
In the comfort of their own home from an infusion-trained nurse  
At an infusion suite close to work or home, providing a comfortable, convenient and private alternative to home care

Choosing an alternate site of care can make infusion care more convenient for your patients.
