
The Social Determinants of Health (SDOH) Screening is an incentive in the Quality Enhancer Program and is available to all providers. This incentive will reimburse \$10.00/occurrence, as CareSource recognizes the changes that may occur in a member's environment.

Healthcare Common Procedure Coding System (HCPCS) codes G9919 and G9920 are non-covered codes. However, CareSource wants to recognize providers for rendering this service with a maximum of four times per year, per member. CareSource will not pay the incentive after the member has reached this incentive limit.

	G9920, G9919	99429	YF	\$10.00/occurrence

The SDOH Screening is an important tool for providers in identifying a member's social needs.

Please contact your Provider Relations Representative or call Provider Services at from 7 a.m. to 7 p.m. Eastern Time (ET) or email ProviderRelations@CareSource.com.
