

ADMINISTRATIVE POLICY STATEMENT

A. Subject

Electrocardiogram (EKG/ECG) Interpretation and Imaging Interpretation

B. Background

An electrocardiogram (EKG/ECG) is a non-invasive test that records the electrical activity of the heart. It may be used when a possible cardiac issue occurs due to an emergency medical condition. An EKG/ECG may need to be performed to address the situation quickly. The recording is reviewed by a physician who provides an interpretation and written report. An EKG/ECG may be reported as the technical aspect only, the interpretation and written report only, or both aspects together as one service. For the purpose of this policy, EKG will be used to represent both EKG and ECG.

C. Definitions

The ADMINISTRATIVE Policy Statement detailed above has received due consideration as defined in the ADMINISTRATIVE Policy Statement Policy and is approved.

The ADMINISTRATIVE Policy Statement detailed above has received due consideration as defined in the ADMINISTRATIVE Policy Statem
