Surgical Procedures

---

### Summary

CareSource is pleased to announce the launch of a new and innovative Cardiac and Musculoskeletal Surgical Quality and Safety Management Program. The program is designed to work collaboratively with physicians to promote patient safety through the practice of high quality and cost-effective care for CareSource members undergoing Musculoskeletal and Cardiac Surgical Procedures.

### Importance

#### Program Highlights Include:

**Administrative Tools** to support an efficient, user-friendly request process for obtaining medical necessity prior authorizations for procedures which require precertification. Easy and efficient post-prior

g authorization requests that require additional appropriateness of the procedure specific to the

tracking and monitoring of patient outcomes and preventive measures to better coordinate care for the complications due to patient comorbidities.

o facilitate timely and consistent notification to the when a member has received or needs a revision e recall.

scheduled.

Providers (in-network and out-of-network) can view Cardiac and Musculoskeletal Surgical policies and guidelines at TurningPoint's website after registration on the [TurningPoint Portal](#)

**Key Provisions:**

- Emergency
